

# Contents

Integrating Functional-Logic and State-Oriented Specifications .....	1
<i>P. Padawitz</i>	
Transforming Context-Sensitive Rewrite Systems .....	26
<i>J. Giesl and A. Middeldorp</i>	
Selection Strategies of Matching Traversal Orders for Non-Strongly Sequential Systems .....	38
<i>N. Nedjah and L. M. Mourelle</i>	
A Domain-Theoretical Approach to the Semantics and Analysis of Narrowing Computations .....	49
<i>M. Hanus and S. Lucas</i>	
A Functional Specification of Declarative Debugging for Logic Programming .....	61
<i>R. Caballero, F.J. Lopez-Fraguas and M. Rodriguez-Artalejo</i>	
Reasoning about Fluents in Logic Programming .....	75
<i>V. Pallota</i>	
A Fully Abstract Semantics for Modular Programming based on a Rewriting Logic	92
<i>J.M. Molina-Bravo and E. Pimentel</i>	
A Distributed Constraint Solving System for Functional Logic Programming .....	107
<i>M. Martin, T. Ida and W. Schreiner</i>	
A Functional Logic Language as Hostlanguage for a System of Combined Constraint Solvers .....	119
<i>P. Hofstedt</i>	
A Type-based Nondeterminism Analysis for Functional Logic Languages .....	133
<i>M. Hanus and F. Steiner</i>	
Abstract Interpretation based Verification of Logic Programs .....	147
<i>M. Comini, R. Gori, G. Levi and P. Volpe</i>	

An Incremental Curry Interpreter .....	160
<i>M. Alpuente, S. Escobar and S. Lucas</i>	
An Efficient Abstract Machine for Curry .....	171
<i>W. Lux and H. Kuchen</i>	
A Study of the Operational Behaviour of Escher and its Implementation .....	182
<i>K. Eder</i>	
Distributed Programming in Curry .....	195
<i>M. Hanus</i>	
Inductive Functional Logic Programming .....	209
<i>J. Hernandez-Orallo and M.J. Ramirez-Quintana</i>	
Inductive Logic Programming with Well-Modedness Constraints .....	220
<i>A. Hamfelt and J.F. Nilsson</i>	
The Functional Rent Advisor .....	232
<i>S. Abdennadher, T. Geisler and S. Panne</i>	
Specialization of Functional Logic Programs Based on Needed Narrowing .....	245
<i>M. Alpuente, M. Hanus, S. Lucas and G. Vidal</i>	
Partial Evaluation of Residuating Functional Logic Programs .....	257
<i>E. Albert, M. Alpuente, M. Hanus and G. Vidal</i>	
Parallel Graph Narrowing .....	269
<i>R. Echahed and J.-C. Janodet</i>
